A FITNESS, SPA + WELLNESS COMMUNITY.

Members can enjoy fitness, nutrition, and wellness guidance, as well as yoga, strength-training, group exercise and Pilates classes. In addition, we offer in-house and virtual programming including educational talks, wine tastings, meditations, and networking events. We also feature our Serenity Lounge and co-working space for a place to decompress or catch up on work. We offer a full-service luxury spa with rejuvenating experiences that include massage, facials and other forms of therapeutic healing.

At Opti-Life we provide a path for our members highest potential within a like-minded community. We have created a space where people come to take care of themselves, to feel good, and to thrive. We hold that space so people can discover more about themselves.
